Seeking job opportunities where I can contribute to real-world projects, gain hands-on experience, and deepen my professional knowledge.

I believe that with my dedication and sense of responsibility, I can successfully fulfill any assigned tasks.

PROJECTS

E-commerce Web Application

AUGUST 2024

Description

- Developed a web application that enables product management, inventory checking, and order processing.
- The system allows users to sell products, browse items, and place orders.

Key Features

- Designed and implemented the database schema using MySQL.
- Built RESTful APIs using Spring Boot.
- Implemented authentication and authorization with Spring Security and JWT.
- Mapped relational data using Spring Data JPA.
- Developed the user interface with Angular, styled using Bootstrap.

Technologies Used

- Frontend: HTML, CSS, JavaScript, Bootstrap.
- Backend: Java, Spring Boot, Spring Security, Spring Data JPA.
- Database: MySQL.
- Tools: IntelliJ IDEA, VS Code, Postman, Git.
- GitHub: <https://github.com/nh3inh/ShopApp>.

Social Media Web Application

APRIL 2025

Team Size: 3 members

Position: Frontend Developer

Description

- Developed a real-time social media app with Twitter-like features.
- Enabled users to post, interact (like, comment), search content, and communicate via messaging and video calls.

Key Features

- Built UI with React, ShadCN, and Tailwind CSS.
- Tested and debugged components for smooth UX.
- Helped develop APIs and backend logic.

Technologies Used

- Frontend: React, Tailwind CSS, ShadCN.
- Backend: NodeJS (partial contribution).
- Tools: VS Code, Git, Postman, GitHub.
- GitHub:
 - Client: https://github.com/nh3inh/twitter_client.
 - Server: https://github.com/nh3inh/twitter_server.
